To Whom It May Concern,

This is to verify that OneTwoWeb have undertaken web based projects on behalf of HRG Bulgaria and have been responsible for the design, implementation and operation of web based products for us.

We have found them to be extremely reliable and also to be creative and imaginative in their approach towards their tasks. They possess the ability to listen and to understand the needs of the project which they deliver in a most timely manner.

We highly would recommend them for their reliability and performance and would not hesitate in using them in our future projects
